TC-450: Inductive Proximity Sensor

The TC-450 detects metallic targets without contact and is built for conveyor and packaging lines with frequent wash-downs.

The sensing face is flush-mountable and resists the shock and vibration typical of high-speed handling equipment.

Technical Data

Sensing range	0-4 mm, adjustable
Supply voltage	10-30 V DC
Output type	PNP, normally open
Ingress protection	IP67
Operating temperature	-25 °C to +70 °C
Housing material	Nickel-plated brass
Connector	M12, 4-pin
Weight	45 g
