

Voltrex Systems

VX-220: Servo Drive

The VX-220 drives synchronous servo motors up to 2.2 kW and is intended for cabinet mounting alongside the rest of the control system.

Auto-tuning covers most load types without a separate commissioning tool.

Technical Data

Rated power	2.2 kW
Input voltage	3 x 400 V AC
Protection class	IP20
Operating temperature range	0 °C to +55 °C
Communication interface	EtherCAT
Mounting	DIN rail / cabinet panel
Weight	3.1 kg
